Moola Freer Award and Scholarship

History

The Moola-Freer Scholarship and Award was established in 1995 with the objective of furthering the advancement of palliative care education and recognizing persons who show excellence in the field of palliative care.

The fund was established by Dr. Dawood Moola and wife Anne in the name of their parents.

Dr. and Mrs. Dawood Moola strongly support the 'life-affirming' philosophy and values offered by health care professionals to individuals and families in the area of palliative care.

Through the establishment of the scholarship and the award, it is hoped that more opportunities for education will be made available and that excellence in the provision of palliative care services will be recognized.

The Award

Honoring those who serve with compassion in palliative care, the award is presented annually in late October at the Catholic Health Associations Annual Convention .
