David Maginley's New Book

Keynote Speaker • Author • Four-Time Cancer Survivor • Near-Death Experiencer • Spiritual Counselor

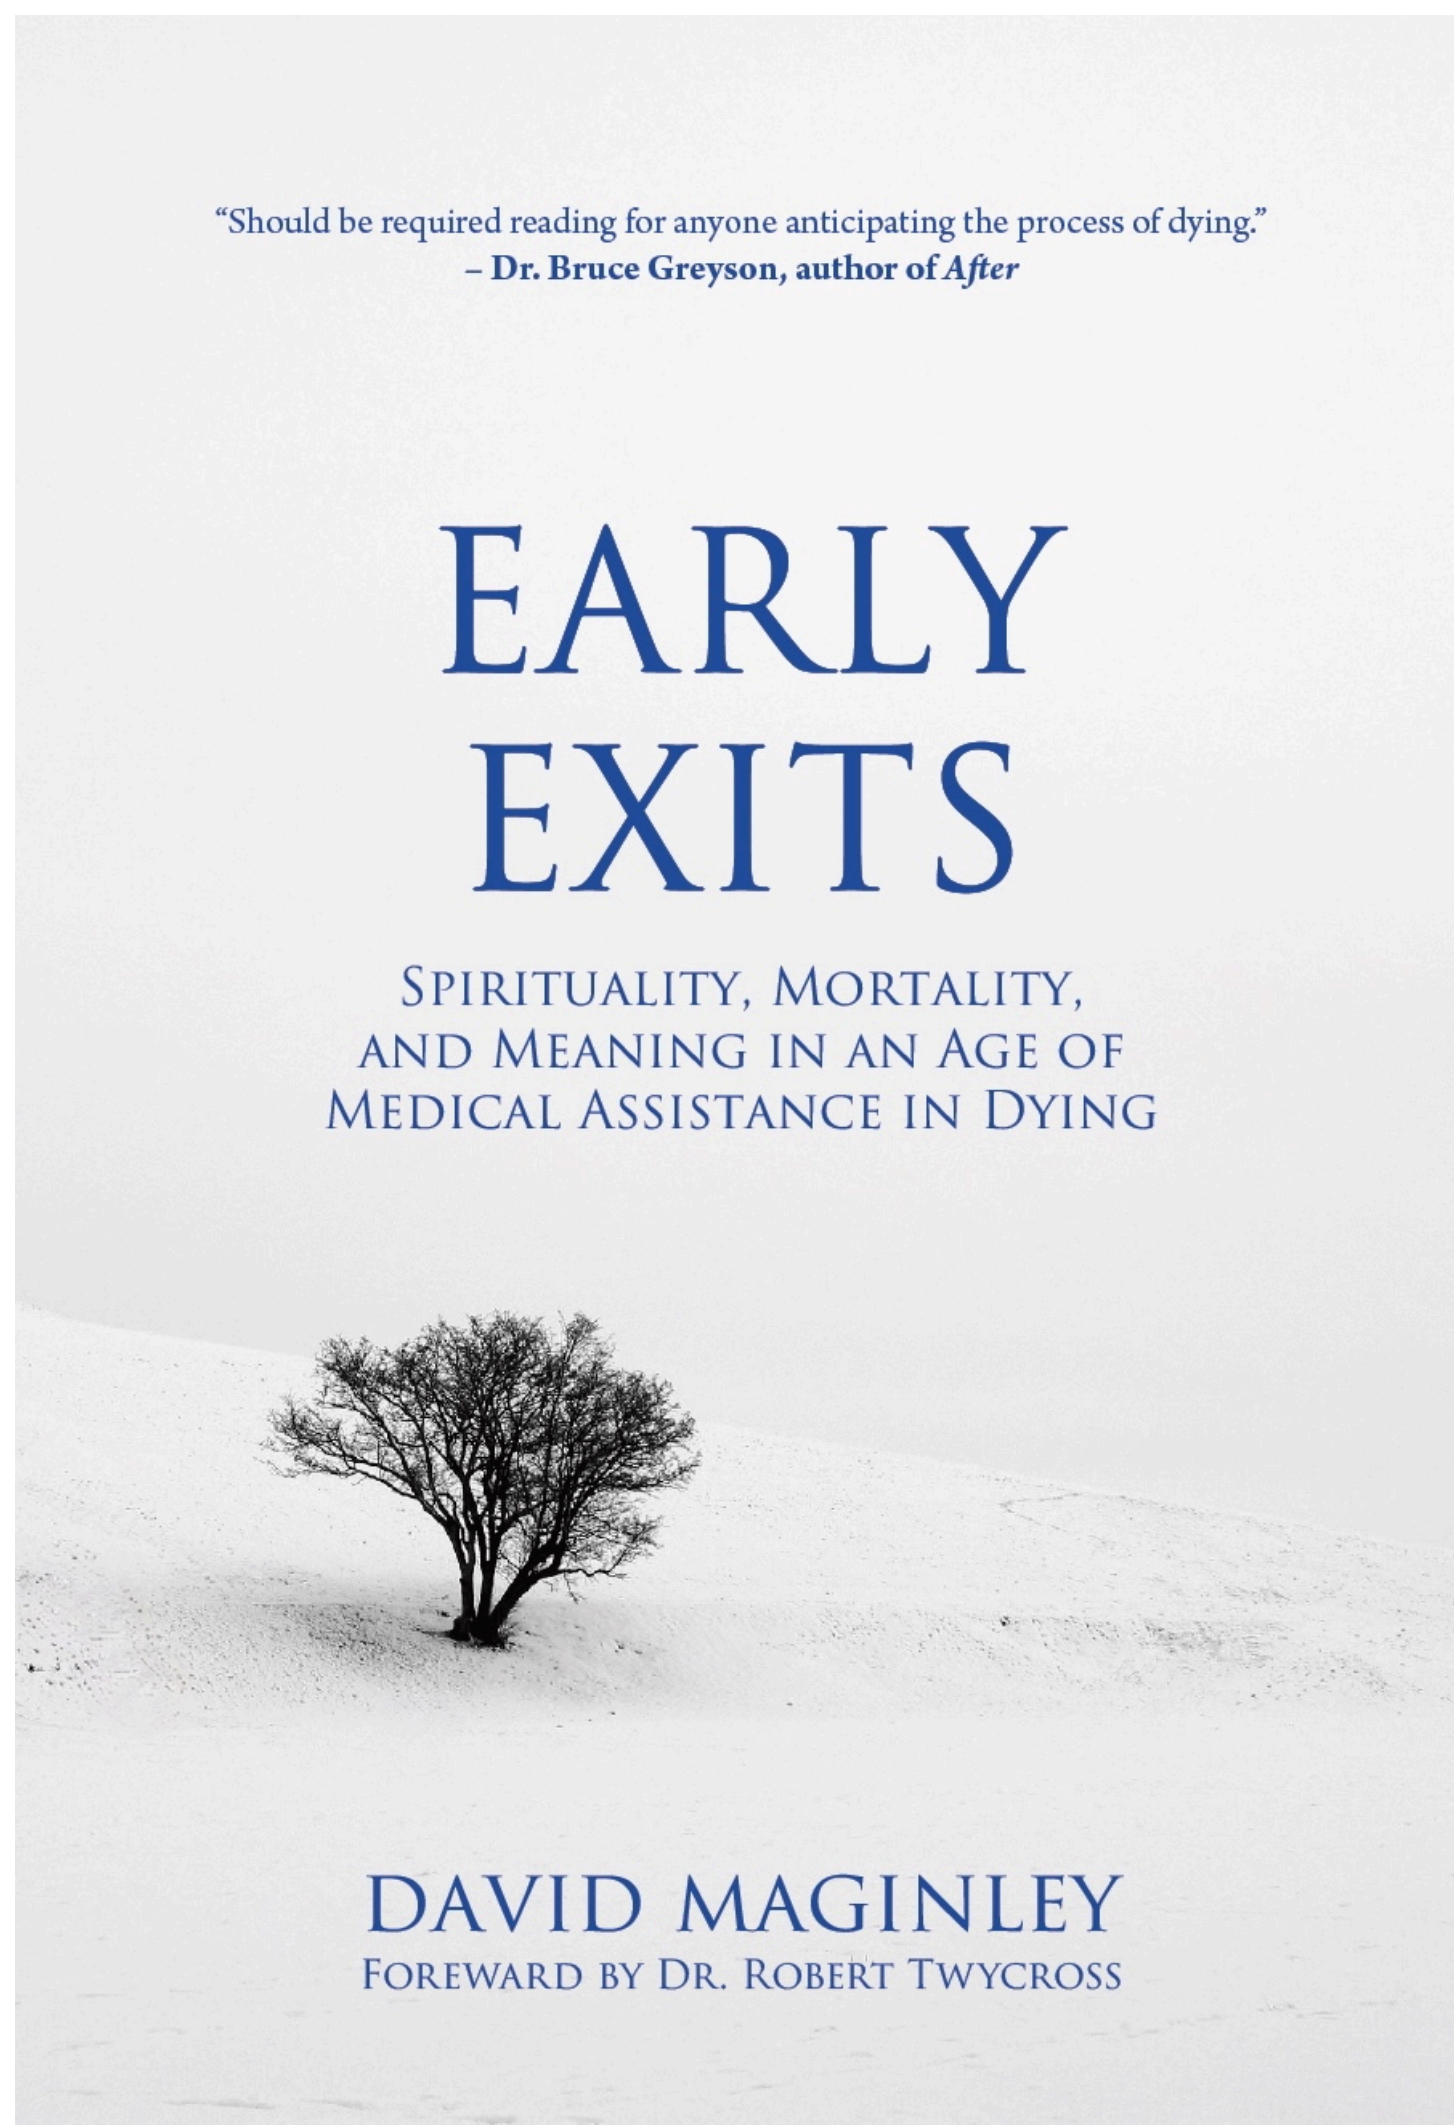

Early Exits explores the profound psycho-spiritual dimensions of the dying process, revealing how existential distress, not physical suffering, drives requests for medical assistance in dying (MAiD). By reframing death as a transformative journey rather than something to be avoided, it offers hope, insight, and a deeper understanding of what it means to live fully in the face of mortality.”
