On October 17, we're gathering to reflect on how Medical Assistance in Dying (MAiD) has touched our lives — especially when someone we love has chosen this path. Many people carry questions, mixed emotions, or unfinished conversations, and this workshop is meant to be a gentle space to share those experiences.

We'll take time to talk about dying and death in our own families and communities, learn how MAiD is defined and guided by the Government of Canada, and explore faith-based and interfaith perspectives on care, accompaniment, and alternatives. As we move through the session, we'll check in on what you're learning and what feels helpful.

Before we close, you'll also have the chance to suggest any follow-up workshops or supports you feel would benefit our community.
